1951

*JEFFERSONVILLE HIGH SCHOOL*  
*JEFFERSONVILLE, INDIANA*

## *Our Memories We Dedicate*

With loving hearts and memories  
Of fighting lads away,  
Our thoughts turn back life's pages  
To only yesterday.

When schoolmates left for lands across  
The wide and roaring sea,  
Offering all for country,  
For truth and liberty.

Our hearts go out to every lad  
Who makes that noble stand:  
Every soul is praying for  
Peace throughout the land.

In memories our love will live,  
And praise shall fill the skies,  
For every boy who fights today,  
For every lad who dies.

We shall ne'er forget them  
And everything they've done,  
Praying for their safety  
Until the victory's won.

*Our unsung heroes*

We would like to thank Mr. Ervin, our teachers, and fellow students for the fine assemblies we have had this past year. We have enjoyed pep sessions for our ball teams, educational discussions, and entertainment of all kinds by our own students and those from outside—we know that all work and no play makes Jack and Jill pretty dull.

Growing naturally out of the very life of the school, it's an essential part of it. The council can mobilize the school's forces for the promotion of a comprehensive, varied, and educative program. For the individual member there are many benefits such as the development of responsibility, initiative, good citizenship, and student co-operation.

### FRESHMEN FOOTBALL 1950-51

This year Jeffersonville organized a freshmen football for the first time since 1941. Of the 34 boys who turned out at the beginning of the season, 28 boys finished, coming up against tough competition during the year's play. The boys showed much promise for varsity performance in the coming seasons. The Frosh were defeated by a Valley High School reserve team, 31-0, beat Flaget 6-0, tied St. Xavier 0-0, lost to St. Xavier 18-0 and Valley 12-6, and tied Flaget 13-13.

BASKETBALL 1950-51

Red Devils basketball fans got many an opportunity to see their team demonstrating ability on the hardwood. The Demons began the season with three victories over Gertsmeier of Terre Haute, Corydon, and Shelbyville, losing to Princeton, and Martinsville, beating French Lick, and Peru, submitted to Elwood, Bosse of Evansville, Jasper, Paoli, Memorial of Evansville, Bedford and Mitchell, and taking East Gary, Male, and Ellettsville for wins. Jeff's quintet defeated New Washington, Charles-town, and Silver Creek to meet New Albany in the final round of the sectional tournament with a valiant try. Harold Lacy, Fred Lacy, Ernest Thro, and Ronald Bryson acted as student managers for the season. The ball players were coached by an able staff. Bill Johnson, head coach, Melvin Vandermeer, Kenneth Davis, and Kenneth Ratcliff.

## New Magazine, "Ffej," Reviews Progress

"Last Call—North Pole, Outer Mongolia, Inner Tibet—Plane now leaving gate 51. All Aboard Please." It's the year 1966. Mr. Detamore, Mr. Johnson, and Mr. Davis, among others hurry to board their plane. Inside, they are greeted warmly by other well known educators, all bound on the same mission—to establish progressive education in remote Tibet.

The pilot signals for the take off. The passengers tighten their safety belts and settle down for the trip that will take only a few hours in this age of jet travel. But since the scenery over the North Pole isn't too interesting, each teacher reaches for his copy of that exciting new magazine, "FFEJ."

Mr. Detamore glances at the cover to find a color photograph of *Chester Baltenberger*, the big financier and banking tycoon, breaking a bottle of champagne over the nose of the first interplanetary passenger rocket ship. *Don Smith*, the pilot, and *Frank Templin*, the navigator, are seen watching. Mr. Detamore turns quickly to the article inside to discover that the daring engineer, *Clarence Almond*, has designed this super rocket and that *Jimmy Hawes* has built and installed a huge new radar system for the maiden voyage. *Peggy Osborne* is the chief woman stewardess on the interplanetary run. Among the other passengers listed for the trip into space are: Dr. *Pat Russ*, studying the effect of space travel on the big toe; F.B.I. sleuth, *James Grayson*, on his relentless pursuit of lawbreakers; *Mary Katherine Isler*, authority on etiquette, obtaining practical in-

formation for her newest book, "How to Get On and Off Rocket Ships;" and *Adleheid Jakob* who expects to take pictures along the way for *James Gannon's* next Hollywood production "How High is the Moon."

While Mr. Detamore leans back and closes his eyes to think of the gang back there in Jeff High, Mr. Johnson turns to the sports page to discover that *Pete Carroll* has just coached his girls' basketball team to an international championship. On the same page is a picture of *Jean Doris Lamoureux* in an exciting pose receiving praise for her figure skating. *Gary Donahue* is hailed as the new speedway champion at Indianapolis, having driven a low flying jet special built by *Billy Gill*. Influential sports magnet, *Harold Lacy*, is all smiles accepting his appointment as High Commissioner of Baseball for Alaska and the Aleutians. Swimmer *Helen Shouse* appears with reports telling of her difficulties in being the first to swim the English Channel backwards.

Meanwhile Mr. Davis has thumbed through his copy and turns to the section on radio and television to find a review of *Jacques Landis'* latest television success. Jacques' new sponsor is the Nachand Success School owned and operated by *Norma Nachand*. Every afternoon Jacques gives free facials along with handy household hints. *Wanda Strother* gives cooking lessons for brides over another channel. An up and coming figure on the guest star programs is *Johanna Reihl* who interviews such famous people as *Bill Brummett*, who's creations are the rage of Paris—every woman, it seems, just must own a Brummett original. Others who have appeared on Johanna's recent shows are the crack woman pilot *Blanch Calkins*, *Gussie Fredericks* who has helped revive river boat passenger service by setting some records with her new streamlined ship, and *Ruth*

Turning the page for news of Hollywood and Broadway, Mr. Davis reads *Betty Jean Hills'* column to learn that *Marion Glass* has created a sensation with a built-in popcorn machine for every seat in the theater. *Jim Gilchrist* and his Hoosier Glee Club are touring the country in the easy to pilot *Bob Hogan Helicopters*. Theatrical agent, *Leon Shaw*, is doing a thriving business. His latest sensation, *Mary Lee* "Hop-along" *Horan*, has revolutionized the horse opera by becoming the nation's number one cowgirl. *Ronnie Thornton* is creating an uproar in Hollywood over his daring dance steps. Movie stars are clamoring for lessons. Screen actress *Gloria Pruitt* is now starring in educational films to be sent to the Moon and Mars. Rousing from his reverie, Mr. Detamore has once more opened his magazine and is scanning the foreign news when the names of *Jim Roberts* and *Sam Vogt* loom big for their new plan to cement relations in Europe. *Jim Constantine* is reporting on opportunities for migration to Siberia. *Aleene Pfaffinger* has taken a job with the foreign service as a linguist. *Wilma Kratz* has made quite a stir in the social circles of the Canary Islands since her arrival there as our ambassador. *Bobbie Ballard* and *Faith Dorman Casey* have teamed up on a crusade to establish an International Society for Prevention of Cruelty to Women.

Mr. Davis meanwhile has been looking at a picture of a large pink building described as the first super-market with built-in swimming pool and bowl-

Reading on, *Mr. Davis* learns that shoppers can view the fabulous styles of *Marion Lang* while lunching in the Cloud Room just off her exclusive salon. *Pat Bottorff*, *Betty Cooper* and *Wilma Roberts*, modeling the *Lang* creations, have obtained fame throughout the fashion world. *Norma Harryman* got her start as a *Lang* model. She now models bathing suits for Eskimos. Without stepping out of the building the shopper finds *Jim Young's Beauty Shoppe* specializing in unusual hair coloring, *Edna Williams* florist shop featuring the *Haley-denias* especially developed by *Joan Haley* and imported from her 1000 acre plantation in Alaska. *James Regan* designs *Edna's* flower arrangements and has written a book on the subject. *Betty Guenther* and *Ruth Morris* operate a popular candy store in the center and have made candy history with an edible candy wrapper.

*Mr. Johnson* is busy with some articles in the science section of "FFEJ." He reads that world famous physicians *John Growman* and *Jack Baldwin* have prepared a food tablet that does away with eating. *Joann Greene*, president of *Greene Pharmaceutical Company*, announces her firm has just employed expert pharmacologists *Richard Schnatter* and *Margaret Shaw* to double check the product. hit the headlines with another first, an alarm clock that can be turned off by a thought wave. *Nancy Fifer* announces packaging her latest beauty aid with Uranium added, designed to cause an explosion of loveliness among its users. Nancy employs *Janet Bennett* to demonstrate these wonderful atomic cosmetics. Part time rancher, *Sharon Wishard*, has developed a new breed of cattle. In her spare time, she and *Betty MacGruder* conduct the only school on horseback. Dentist *Bart Sigler* has added a revolutionary touch to the art of brushing your teeth—a brush with a gum dispenser handle. *Robert Hustedt* is reported making promising progress on his cold fire colors for interplanetary advertising. *Barbara Jones*, already an internationally known psychiatrist, has just finished extensive research on the effect of music on the armadillo. Bebop composer *Marilyn Linney* wrote some special arrangements for Barbara's experiments. Receptionists for Barbara's booming business, *Beverly Adams* and *Shirley Fitch* are mentioned as also helping conduct some of the world shaking tests. Mr. Johnson's attention is caught by *Loren Franz's* name and he reads reports of big game hunting in darkest Africa where Loren seems to be mainly concerned with gathering new material for *Donald Hutcheson's* butterfly museum. Next he learns that *Keith Spencer* has just patented a wrist model television set with collapsible aerial. *Robert Lindsey* is setting up to manufacture them in quantity.

Mr. Detamore and Mr. Davis compare notes and read on about the national scene. The whole country seems to be in a mess. *Frank Dolbeare* was elected senator and immediately started an investigation of corruption among tiddlywink players. *Marie Crum* is the smallest governor Texas ever had and the legislature has just passed a bill buying her

Mr. Johnson calls their attention to the press section and Mr. Davis notices that the brilliant novelist, *Betty Godfrey*, has done it again. Another book of the month selection, "Secret Confessions of a Lady Plumber," has come from her pen. The influential literary critic, *Ray Weaver*, has proclaimed it one of

Even sportscaster, *Wayne Dimmitt* commends the girls. *Mary Alice Miller's* cookbook, "Meals Like Your Mother-in-law Used to Cook," threatens to be a best seller. Advice to the lovelorn appears in nearly every newspaper from the pens of *Mary Ann Richardson* and *Gertrude Smith*, who according to the article, have become authorities on domestic problems. Other new books are described and then there is a list of familiar names: *Vivian Bishop*, *Dorothy Buse Clark*, *Pat Gleason Hook*, *Deanie Swearingen Hyman*, *Shirley Sutton Jones*, *Barbara Kulmer Jenkins*, *Patsy Scheer Kopp*, and *Jeanne Bottorff Waterman*. Charles Williams is marketing a new kind of lunch meat that contains a complete lunch all in one sandwich. Jane Green and Delores Weber help Jessie think up slogans for their ads and plans are being made for expansion to cover their clients on other planets. The import and export business has boomed since the new rocket run has been established and Henderson Wyrick, Charles Noyes, and Michael Sellmer have all they can do to keep up with the business.

The pilot disturbs the passengers with the announcement that they are nearing their destination. Mr. Detamore, Mr. Johnson, and Mr. Davis put down their magazines and prepare to leave the plane. As they step out into the sunshine, Mr. Detamore is heard to comment, "It's amazing what those kids can do in fifteen years."
